• WORK EXPERIENCE

Bhamare Engineers & Architects

Feb 2020 - Sept 2022

- Designation : Graduate Trainee
- Nature Of Work : As a graduate trainee in an architectural firm I managed site planning secured Approvals and interacted with clients documenting their needs

• ACADEMIC PROJECTS

Vehicle Washing Centre Management

Aug 2023 - Sept 2023

- Frontend Technologies : React, HTML, CSS, JavaScript
- Backend Technologies : .Net
- Database : Mysql
- Description : Developed a user-friendly MS .NET web portal for vehicle washing services. Enabled pre- booking and real-time notifications. Managed customer records and feedback for improved service. Designed an admin dashboard for efficient booking and schedule control. Ensured mobile responsiveness and data security.

Experimental Validation Of Flexural Strength As Specified By IS 456-2000

Dec 2019 - May2020

- Description : Verify the accuracy of the IS code's Flexural Strength formula for plain concrete. Conduct tests on various concrete grades. Compare test results with the IS code's formula. Ensure reliable strength values for durable and high performance structures.

Calculation Of Road Statistic By Using Ultra Sonic Device

Dec 2016 - May 2017

- Platform : C++
- Description : This project uses an ultrasonic sensor to measure height changes in damaged surfaces. It can help assess the damage caused by events like building collapses or road problems after disasters. Our method is accurate and gives useful information. We proved its effectiveness through experiments.

• INTERNSHIP

2-month Site Supervisor Internship at Shambhuraj Construction, Nashik.

• EXTRA CURRICULAR

- **Contributions to NAAM Foundation:** Raised funds for NAAM Foundation, aiding farmers through education and assistance.
- **Frequent Blood Donor:** A dedicated blood donor, helping save lives and strengthen the community.
